

News & Social Media

NEWS & PUBLICATIONS SEARCH

Hire Image searches various databases and the internet to find articles from newspapers, trade magazines, professional journals, and many other sources.

These searches can uncover a myriad of information such as publication of awards, articles, and other achievements by the applicant, or references to criminal activity, business transactions, and disputes.

SOCIAL MEDIA SEARCH

In today's world, most applicants use social media in some form which can give employers a glimpse of the applicant not available on the resume.

Clients identify the derogatory criteria for these social media searches and Hire Image will base reporting on that criteria. Sample categories are:

- Threats or Acts of Violence
- Sexually Explicit Material
- Racist, Sexist, or Discriminatory Behavior
- Potentially Illegal Activity
- Negative Content Related to Employment

Hire Image LLC is a nationally accredited specialist in the field of background screening, drug testing and verification services. Our priority is to provide accurate and timely background screening reports, with integrity, using our secure platform, thus enabling clients to make well-informed hiring and/or retention decisions.
